PROFESSIONAL EXPERIENCE

The Processing Foundation, Open Source Developer Intern June 2026 - September 2026

- Contributed to p5.js website via Summer Open Source Experience (SOSE), collaborating with Code Day & Computing Talent Initiative.
- Resolved a markdown layout regression (Issue #1452) using git bisect; authored regression tests to prevent future UI failures.
- Proposed an architectural fix for a responsive breakpoint mismatch between CSS and React components, improving maintainability.

Marina Public Library, IT Support Technician February 2026 - May 2026

- Provided IT support, systems maintenance, and troubleshooting for library infrastructure and technical services.

Handshake AI, AI Fellow December 2025 - March 2026

- Contributed to Fellowship Projects supporting core initiatives like image recognition, video creation, logic testing, and audio recreation.

PROJECTS

Multimedia Collage Maker | React, Vite, JavaScript, HTML/CSS Live Demo

- Developed a browser-based multimedia collage app supporting video/image uploads, randomized layouts, and drag-and-drop positioning.
- Implemented fullscreen mode, keyboard shortcuts, and client-side WebM export using MediaRecorder and Canvas Capture Stream APIs.

NutriFind - Android Calorie-Tracking App | Kotlin, Jetpack Compose, Room, Retrofit, JUnit, Espresso GitHub

- Built account creation, authentication, and user-specific food-log functionality using Kotlin and Jetpack Compose.
- Designed Room entities, DAOs, and a database migration to add food logs without deleting existing accounts.
- Added unit and instrumentation tests (JUnit, Espresso) and collaborated via GitHub pull requests to integrate features.

Bird Encyclopedia | HTML, Python, Frontend/Backend Development GitHub

- Built backend features for a bird discovery web application that requested and displayed bird data by category.
- Designed user interactions and contributed 11 of 32 commits during a 3-week team project to support UI/UX design.

EDUCATION, LEADERSHIP & INVOLVEMENT

California State University Monterey Bay, Seaside, CA Expected June 2027

B.S. Computer Science | CSin3 Program Participant

Hartnell College, Salinas, CA May 2026

A.S.-T Computer Science

Asian Pacific Islander Association, CSUMB | Board Member, Recreation Head 2026 - Present

- Coordinated and planned recreational and collaborative events for the Association's members.

TECHNICAL SKILLS

Computer Skills: Languages: Python, C++, JavaScript, TypeScript, SQL, HTML, CSS; Frameworks/Tools: Node.js, Express, EJS, React, PostgreSQL, MySQL, Git, GitHub, Render, Heroku
